

KYRO CP1

OLED network control panel

The OLED Wall Panel Controller provides flexible audio and system control through a user-friendly interface. It supports up to 32 menus for functions like volume, mute, preset selection, and room combining. With PoE power, TCP/IP and UDP control, and in-wall or surface mounting options, it is ideal for modern AV installations.

KEY FEATURES

- . Configuration: Via the processor's control panel.
- . Supports 32 menus.
- . Controls basic audio functions or complex logic events.
- . Volume/Mute, preset selection, room combining, etc.
- . Features OLED displaying.
- . Universal mounting – in-wall or surface mount.

TECHNICAL SPECIFICATIONS

Control protocol	UDP	Connection port	RJ-45
Address setting method	TCP/IP	Power consumption	<100mW
Signal line length	100 Meters	Color	White
Power supply method	PoE	Material	Alloy base, tempered glass
Structural Dimensions (W×D×H)	86x86x37mm
